At the last meeting of the Distress Relief Fund Committee it was resolved that the sum of Rs. 90,000/- which is now deposited in 2¾% Fixed Deposit and a further sum of Rs. 5,000/- from the current account may be invested in 1953-63, 4% bonds in consultation with the Comptroller. The latter who was addressed in the matter has intimated that 4% bonds can be bought only in the open market and that the rate will be about 113% and bonds of the face value of Rs. 84,000/- only could be purchased for Rs. 95,000/-.

P.U.D.

He suggests that the amount may with advantage be invested in 3% 1956-61 loan recently notified by Government (Vide copy of Notification attached). From rough calculation made it would appear that the purchase of 4% bonds is not likely to be very much more beneficial than the 3% bonds. This may be Circulated to the Members for favour of remarks on the Comptroller's suggestion.

I agree with the Comptroller The amounts may be invested in the 3% Govt loan as per. I attach the Bank Manager's opinion

Dear Sir Puttanna Chetty,

In reply to your letter of date, the investment in 3% tax free Government of Mysore bonds is the better of the two.

The annual yield is lower but the maintenance of the capital amount intact gives the advantage over the 4% issue.

The 4% bonds are repayable in the period 1953/63 and the 3% bonds in 1956/61. Assuming both will be repaid in the first year of the option, there are 18 years to run in the 3%, and 15 years in the 4%. Investment in 4% bonds costing Rs.112-12-0 will purchase bonds face value Rs.84,000/-. Investment in the 3% can be made at par, = Rs.95,000/-. During the remainder of the bonds' currency, the 4% will yield

in 15 years ...	...	Rs. 50,400/-
Add capital amount on redemption	...	84,000/-
Total ...	...	Rs.1,34,000/-

During the remainder of the bonds' currency, the 3% loan

will yield in 18 years...	...	Rs. 50,300/-
Add capital amount on redemption	...	95,000/-
Total ...	...	Rs.1,45,000/-
